Compassionate Care

## PLEDGE FROM THE HEART

Dear \_\_\_\_\_ (Pet's Name),

Because you are my dearest friend and companion, and I have taken an oath to always provide you with a pain-free and joyous life, should you be confronted with infirmity due to old age or an illness I promise you the following:

- I will not allow the treatment to become harder on you than the disease or age itself.
- I will STAY IN THE MOMENT with you and enjoy what time we have together.
- I will schedule special time for us to play and talk to each other.
- I will put your needs before my fear of losing you.
- I will remember to keep track of the quality of your life on a daily basis and be mindful of the signals you are sending me.
- I will be strong enough to stay by your side at the end to send your spirit off with love.
- I promise to honor your memory by taking the gifts you have so freely given me and living a fulfilling life.
